11th Medium-Term Business Plan

【 FY2024~FY2026 】

Our Company will aim to provide a comfortable and safe work environment, respecting our employees' needs for self-esteem and encouraging every individual to achieve their fullest potential.

Our Company will do its utmost to satisfy its customers, shareholders, and suppliers.

Our Company will strive to maintain a global outlook and continue to conquer challenges in technological innovations to provide high value-added products for our customers.

Our Company is committed to being a good corporate citizen and actively participating in those communities where we are represented.

Creator for the **NEXT**

We will create new value making use of the group network as an engineering trading company leading the electronics industry

NETWORK

X (SYNERGY)
TRADING

External message

Grasp markets from a global viewpoint to create and provide values one step ahead of customer needs

Internal message

Always create a next business and seek a stage for further growth

Started 11M, a new Medium-Term Business Plan, in 2024 as the 2nd step toward a Long-Term Vision 2030 VISION

Continuously pursue **business structure related indices and management indices** that are essential for our medium- to long-term growth to **maximize corporate value**

1st STEP
toward 2030 VISION
10M
(3 years)
2021~2023

Previous Medium-Term Business Plan

2nd STEP
toward 2030 VISION
11M
(3 years)
2024~2026
New Medium-Term Business Plan

3rd STEP
toward 2030 VISION
12M
(4 years)
2027~2030

Long-Term Vision
2030 VISION

Qualitative Target (2030)

Consolidated net sales of **over 100 billion yen** for further expansion

Quantitative Target (Ideals toward 2030)

A corporate group that is needed **globally** for its **technological** and **proposing capabilities**

✗

A corporate group that **co-creates diverse values** with **all its stakeholders** through business activities

Two ideals toward a Long-Term Vision 2030 VISION –
sustained growth of us and contribution to the realization of a sustainable society
(Pursuit of sustainability of us) (Contribution to sustainability of the society)

* The above five value creation activities correspond to our five materiality initiatives.

◆ Medium- to long-term slogan ◆

Make a leap forward in the global market
as a technology-based company

Major policies in 11M in line with Long-Term Vision

- A company that grows in the global market as a technology-based company with net sales of over 100 billion yen
- A company that offers affluent lifestyles to society at large through electronics and electrical technologies
- A company that its employees feel happy to work for and proud of
- A company that has the strength of solidarity with an organizational culture of working autonomously and actively

Main reinforcement points (focus challenges)

- Continuous reinforcement of **domestic business** as a basis for stable growth
- Further reinforcement of **overseas business** as the core of our medium- to long-term growth strategy, particularly the electronic equipment and components business in overseas markets
- Development, cost reduction, and sales enhancement of **original products** as sources of the profitable structure
- Strengthening of creation and cultivation of **new businesses** to nurture new earnings pillars

◆ Basic ideas (continued from 10M) ◆

- Aim at **sustained expansion of net sales & operating income** through management focusing on growth potential
- Seek **gross profit margin of 20%** by continuous business structure reform
- Expect an annual SGA increase by around 3-5% to promote investments forming the foundation of sustained growth (in human resources, technology development, etc.)

**Toward
sustained
expansion
in net sales &
operating income
having a target of a
100-billion yen
company within range**

Set and pursue targets in four management indices for business profitability, financial health, and capital efficiency

Business Profitability

Gross profit margin

【Target】
20%
or above

【Results of 3Q/'24】
19.4%

Financial Health

Equity ratio

【Target】
50%

【Results of 3Q/'24】
42.9%

Capital Efficiency

ROE

Target
12% or above

ROA

Target
6% or above

Promote further step-up with the basic policies in 10M continued in broad outlines

Basic Strategic Policy (i)

Promote business structure reform!

Basic Strategic Policy (ii)

Maximize strengths taking advantage of our uniqueness!

Basic Strategic Policy (iii)

Define focus areas and markets to accelerate growth!

Basic Strategic Policy (iv)

Increase power toward sustained growth!

Outline of 11M 4) Basic Strategic Policy (i)

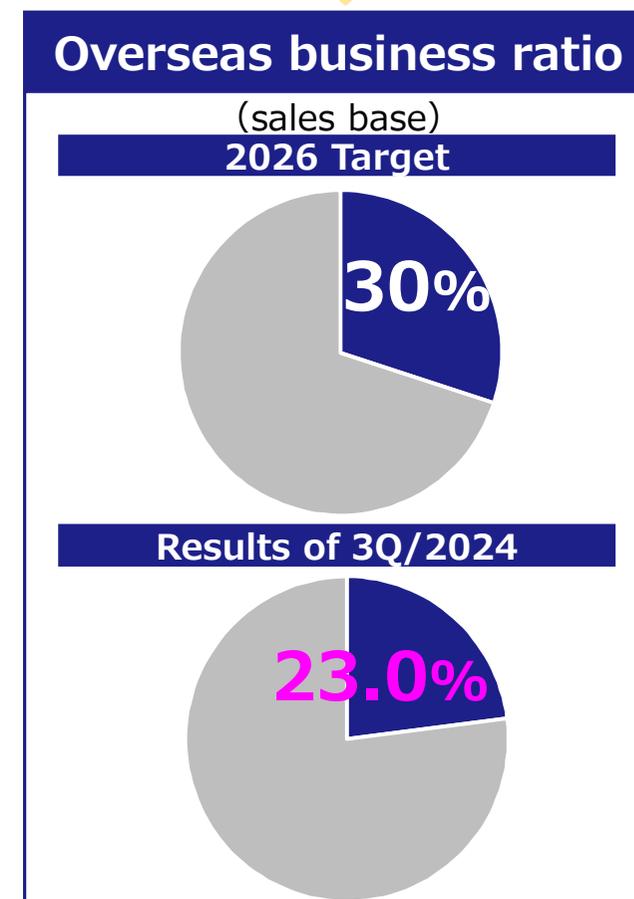

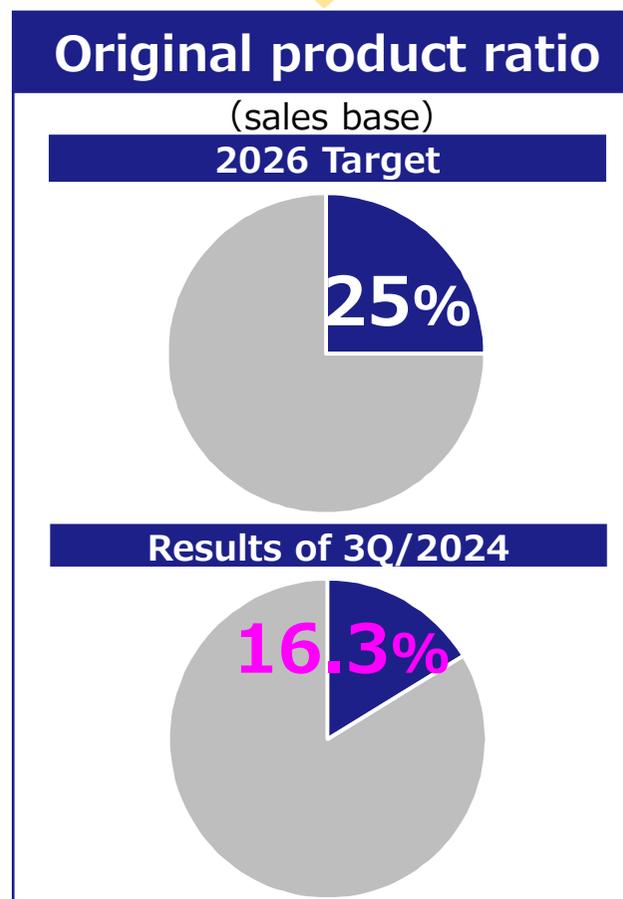

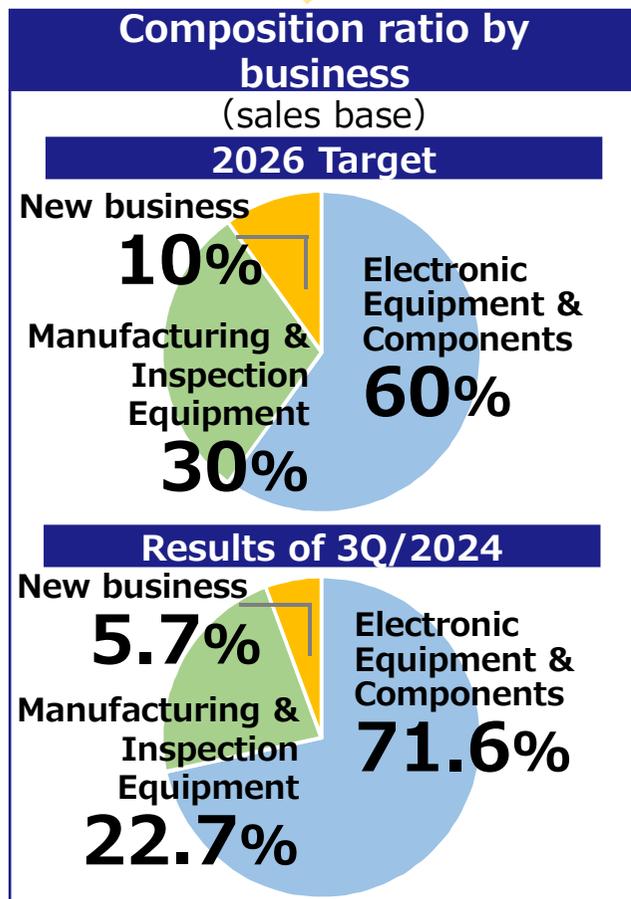

Three KPIs for business structure reform

Stability + Challenge axis

Profit axis

Growth axis

- **Composition ratio by business** ▶▶▶ A new target of "Sales composition ratio of 10%" set as a KPI to measure the results of new business creation:
For accelerated efforts in new businesses creation in response to the achievement of the 5% target set in the previous Medium-Term Business Plan (10M)
- **Original product ratio** ▶▶▶ The target is set at 25% continuing from the previous Medium-Term Business Plan (10M):
"Original products" are limited to the our own products and products developed in collaboration with partner companies
- **Overseas business ratio** ▶▶▶ Overseas sales calculated as in the past. The target remains 30%.

◆ Basic Strategic Policy (ii) ◆

Maximize strengths taking advantage of our uniqueness!

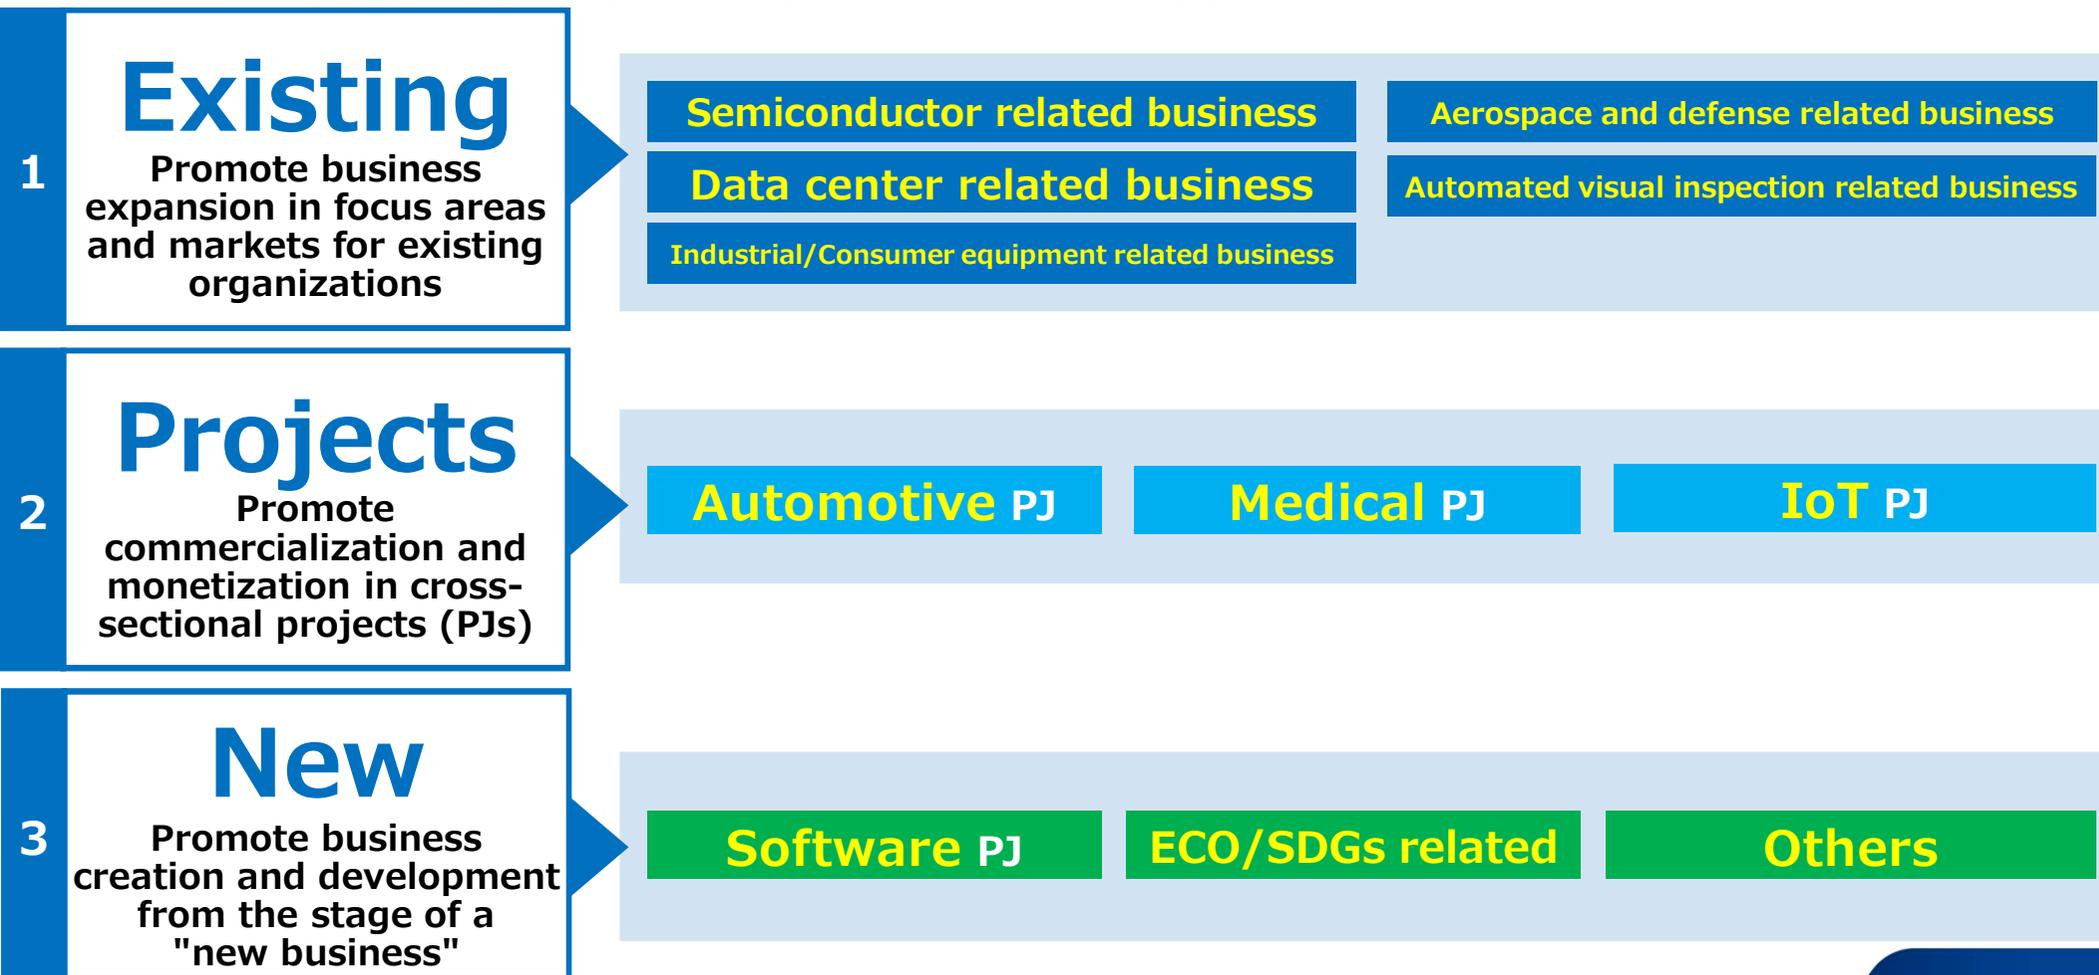

- We have unique strengths such as possessing both trading and manufacturing functions as well as the strong domestic and overseas partner bases
- Further enhance its differential advantage in the industry by building the one and only corporate group combining the manufacturing and sales functions on a global level and maximizing its strengths based on such uniqueness

Analyze domestic and overseas market trends and business opportunities for us, and continue to develop and expand proactively and aggressively in the defined focus areas and markets

● Three measures focus areas and markets

1

Reinforce domestic business as a basis for stable growth

Increase **marketing power!**

● Further deepen relations with focus customers

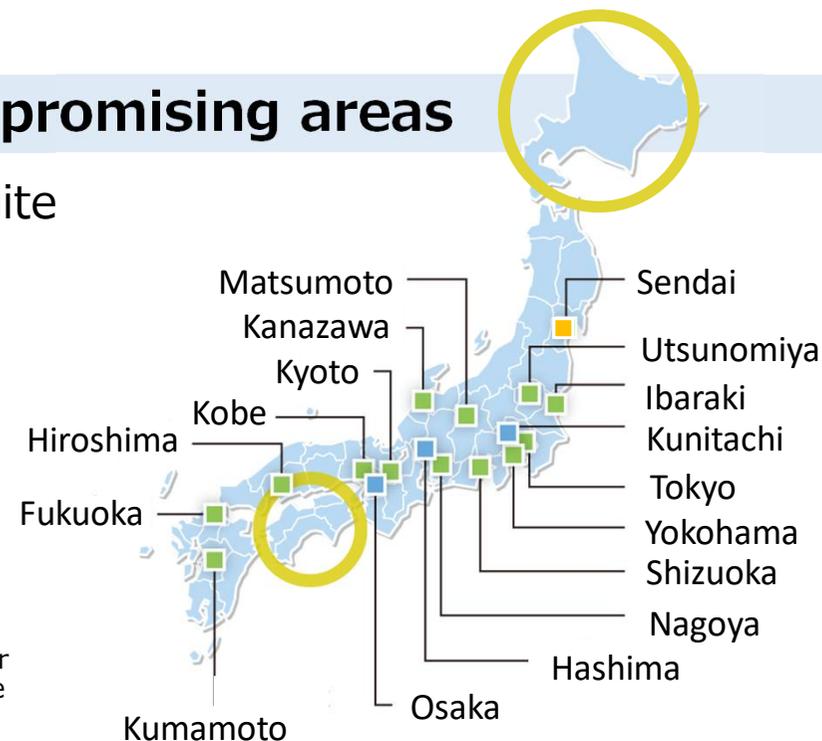

- Continue deployment of "**All-Daitron**" products
(Promote trinity cooperation by D&P Company, M&S Company, and Overseas group)
- Expand business with local blue-chip companies by strengthening **sales focused on local areas**

● Proactively promote new deployment in promising areas

- Examine establishing new locations (including satellite offices) in promising areas
[Candidate areas] Hokkaido, Shikoku, Mie, etc.
- Promotion to sales office: Sendai

- Sales office
- Sales office + Logistic Center
- Satellite office

*  Circled areas are under examination for establishing new locations in the future

2

Reinforce domestic business as a basis for stable growth

Increase **marketing power!**

● Continuously promote expansion focused on the electronic equipment and components business

* Control stable expansion of the manufacturing equipment business, where demand fluctuates significantly (planned launch/acceptance inspection of orders, selection and concentration of customers, risk hedging)

● Expand and enhance overseas sales locations

- Establish regional manager companies (Greater China and Indo-Pacific regions)
- Expand sales locations by region

■ Overseas site (including subsidiaries)
 ■ Under investigation

[North America & Europe]

- Establish satellite offices or make distributorship agreements (at least 3 regions each)
- Establish maintenance offices (North America: 2 regions, Europe: at least 3 regions other than the Netherlands)

[Indo-Pacific]

- Establish a representative office in India (2 potential sites under examination)
- Examine the establishment of a manufacturing location (for harnesses, power supplies, and shift to in-house production of outsourced products) (Potential site: Vietnam)

[Greater China]

- Establish and expand/enhance satellite offices (Inland China)

3 Reinforce global production system

Increase **manufacturing power!**

● Enhance domestic and overseas production capacities

Continuously enhance domestic and overseas production systems centered on the Chubu Factory, the mother plant for our global production system

Domestic

- **Develop new partner companies**
(harness, assembly and wiring, substrate, sheet metal, painting, software design, mechanical design)
- **Promote alliances and M&As with software companies**
=> Secure human resources and reinforce technical capabilities

Chubu Factory

Overseas

- **Personnel reinforcement at the Lincoln Factory**
- **Develop partner companies for the Lincoln Factory**
(Mexico, U.S., Japan)

Lincoln Factory

● Continuously promote production cost reduction measures

- Formulate and execute permanent person-hour reduction plan for the Lincoln Factory
- Establish new production location in the Asian region (Potential site: Vietnam)

4 Enhance technology/product development and intellectual property strategies for higher value-added products

Increase **manufacturing power!**

- **Continuously enhance systems centered on the engineering departments of the Chubu Factory**

- **Proactively develop technologies and products**

- Enhance increase the value added to mass-produced products (with upgraded performance, additional functions, etc.)
- Enhance software related technologies that are essential for future higher value-added technologies/products
 - => Employ more software engineers and examine alliances with software companies, etc.
- Strengthen customer information collection in Japan and overseas, and continuously pursue original product development

- **Enhance intellectual property strategies**

- Improve the foundations for intellectual property management by defining core technologies and taking inventory of technologies held by us.
- Establish a new qualification system based on a medium- to long-term intellectual property strategies
 - => Increase employees' motivation by establishing a comprehensive system linked to the evaluation system
- Expand the number of patents applied for and held over the medium to long term

5 Enhance business support function

Increase the power of corporate divisions!

● DX (digital transformation)

Increase productivity and operational quality through DX promotion

(i) Transform business processes/systems

- Start upgrading/replacing systems for estimation, sales, purchasing, production management, accounting, business management, etc.
- Enhance information security

(ii) Develop DX promotion infrastructure

- Identify issues using DX promotion indices and take measures
- => Obtain DX certification

● Global human resources

Develop global human resources and exchange personnel in and outside Japan

- Introduce and institutionalize an overseas location internship system
- Continue hiring Vietnamese technical intern trainees at D&P Company and expand it to other factories

● Human capital management

Increase the value of human resources through human capital management

(i) Increase labor productivity through investment in training and education

- Develop and invest in training/ education systems to increase individual skills
- Employ experienced and specialized human resources

(ii) Promote diversity and inclusion

- Promote women's empowerment (increase the ratios of female employees at management-track and management positions)
- Promote seniors' empowerment (increase satisfaction)
- Promote hiring persons with disabilities (comply with legal employment rate)
- Review the personnel systems (develop systems such as various allowances for experts, seniors, etc.)
- Obtain the Certified Health & Productivity Management Outstanding Organizations Recognition

● PR/IR

(i) Establish a department specialized in PR/IR

(ii) Increase recognition of the Daitron brand

5 Promote ESG management (sustainability initiatives)

Increase the power of
corporate divisions!

● Contribute to the realization of a sustainable society through ESG management promotion

1. Promote activities of the Sustainability Committee

- Establish materiality-related KPIs and take specific actions (promote the Sustainability Committee's subcommittee activities)
- Disclose KPI progress in Integrated Reports

2. Response to the Corporate Governance Code

- Examine measures of requiring explanations

3. Strengthen corporate governance

Compliance Committee

Prevent occurrence/spread of scandals in the company

Risk Management Committee

Prevent management risks to preserve management resources

Internal Control Committee

Ensure the effectiveness of internal control over financial reporting

Outline of 11M 6) Capital Policy

Pursue the optimal balance between growth investment and shareholder returns while maintaining financial health

Growth investment

[Basic idea]

Aggressively make growth investments centered on the development of human resources and expansion of overseas locations as the basis for future growth strategies

■ Outline of preferred investments in 11M

- Examine the first advance into the Indian market and the establishment of manufacturing locations in Southeast Asia and new satellite offices in the U.S. and China
- Develop locations for data center related projects (UPS, storage batteries, etc.)
- Increase production capabilities, efficiency, etc. of factories in Japan
- Promote DX (strengthen system replacement & information security measures)
- Human capital investment (direct investment + opportunity investment)

Shareholder return

[Basic idea]

Raise the consolidated dividend payout ratio from previous 30% to 40% as a guideline during the 11M to strengthen shareholder returns

■ Changes in dividend per share and payout ratio

Notice of Publication of Integrated Report

Details of our management policy and sustainability are also included in our Integrated Report. Please take a look.

Toward a technology-based company

The Daitron Group, as a technology-based company in the electronics industry, will work together with all our stakeholders to co-create new value for the global market.

The Company's earnings forecasts stated in this material are prepared based on the information currently available to us.

In the electronic equipment/parts industry and the manufacturing equipment industry, which the Company belongs to, technologies change very rapidly and competition is intense.

In addition, there are various external factors that may affect directly or indirectly the performance of the Company such as the economic conditions of Europe, North America and Asian countries.

Please note that, therefore, the Company's earnings may vary from the forecast in this material.
